

Wheat-Free Layer

Available in 40lb, 1/2 ton, and 1 ton

Purpose

Our 17% Protein Wheat-Free Layer Feed is a complete nutritional feed of cracked and milled grain that's supplemented with kelp, organic alfalfa, and Poultry Nutri-Balancer. It's formulated with additional calcium for egg shell strength and organic flaxseed to increase the omega-3 content of the eggs. Formulated without wheat, this feed is ideal for customers handling the feed who may have gluten sensitivity.

Feeding Instructions

Feed layer ration free choice from 16 weeks of age or first egg throughout the egg production cycle. Always provide plenty of fresh water. While this feed is balanced to meet average laying hen nutritional needs, we recommend providing free choice calcium shell to further support your flock's laying needs. Layer/Developer grit should also be provided free choice to help birds self-regulate their intake to best suit their individual needs and improve feed efficiency during digestion.

GUARANTEED ANALYSIS

Crude protein, minimum	17.00 %
Lysine, minimum	0.90 %
Methionine, minimum	0.30 %
Crude fat, minimum	3.00 %
Crude fiber, maximum	6.00 %
Calcium, minimum	3.50 %
Calcium, maximum	4.50 %
Phosphorous	0.80 %
Salt, minimum	0.45 %
Salt, maximum	0.95 %
