

Unmilled Layer

Available in 40lb, 1/2 ton, and 1 ton

Purpose

Our Certified Organic, Soy-Free, Unmilled Layer Feed is a complete nutritional feed that is supplemented with organic kelp and alfalfa, and Poultry Nutribalancer. Designed for adult laying hens, this beautiful feed is formulated with additional calcium for egg shell strength and organic flaxseed to increase the omega-3 content of the eggs.

Feeding Instructions

This feed is best fed soaked or fermented prior to feeding to soften the larger grain pieces. Studies have shown that fermented feed enhances gut health, aids in better digestion of nutrients, and boosts the immune system. Feed layer ration free choice from 16 weeks of age or first egg throughout the egg production cycle. Always provide plenty of fresh water. While this feed is balanced to meet average laying hen nutritional needs, we recommend providing free choice calcium shell to further support your flock's laying needs. Layer/Developer grit should also be provided free choice to help birds self-regulate their intake to best suit their individual needs and improve feed efficiency during digestion.

GUARANTEED ANALYSIS

Crude protein, minimum	_____	17.00 %
Lysine, minimum	_____	0.90 %
